PROFESSIONAL EXPERIENCE

Shayansolutions

Sep 2023 - Present

Senior Laravel Developer

As a Senior Software Engineer at Shayan Solutions, I bring years of expertise in Laravel development, driving the creation of sophisticated web applications. My leadership ensures top-tier code quality, performance optimization, and user-centric design, consistently surpassing client expectations. Working within a dynamic team environment, I've honed collaborative skills, ensuring seamless project execution and client satisfaction.

Stackhunts

May 2023 - Sep 2023

Senior Laravel Developer

With a wealth of experience, I specialize in developing innovative solutions for LMS, CRM, and portals. My dedication to code quality and performance guarantees superior user experiences across Laravel and Vue.js applications. Proficient in seamlessly integrating mathematics and language for calculator applications, I am committed to ensuring project success through robust solutions and continuous innovation.

Enzipe

Jan 2023 - May 2023

Laravel Developer

Specializing in calculator applications with Laravel and Vue.js, I adeptly bridge the realms of mathematics and language to create innovative solutions that elevate user experiences. My focus on precision and ingenuity ensures that each application is seamlessly crafted to meet and exceed user expectations.

CSoft Systems

Jan 2021 - Jan 2023

Laravel Developer

With a strong background in software house environments, I specialize in the development of Learning Management Systems (LMS), Customer Relationship Management (CRM) solutions, and portals. Over the past two years, I've honed my skills in crafting robust solutions using Laravel. Prioritizing code quality, performance optimization, and innovation, I consistently deliver high-value outcomes to meet diverse client needs.

EDUCATION

Virtual University

Bachelor of Computer Science

Madina College
